Intermediate

Experienced programmer and data analyst with a passion for making sense of data and a hunger to learn. Recent graduate from New York University's Shanghai Campus with a strong mathematical background and experience in python, tableau, sql, and google bigquery.

Education

08/2015 - 05/2019

New York University - Shanghai
-Computer Science major
-Learned Mandarin Chinese
-Student at Shanghai campus for 3 out of 4 years, with a year abroad in New York

Projects (Available on GitHub)

Golf Course Investment Data Exploration

Data science project on the most profitable golf course investments. Done with a dataset I scraped from the web using python and the beautiful soup library. Analysis was done in both python and tableau and the final presentation was compiled in power point.

Live Twitter Monitoring Dashboard

Live Twitter monitoring dashboard showing twitter engagement activity, KPI's for recent tweets, and sentiment analysis of tweets related to the company. Created using Python, Tableau, Google Bigquery, Google NLP API, and various Twitter APIs.

Accolades and Leadership Experience
